#### **September to December 2023**

Tutor supported online and face to face workshops for pharmacy professionals with booking links included

# Confidence in consultation skills full day. All day face to face workshop

The evolving world of pharmacy practice means that pharmacy professionals are spending more time than ever conducting patient consultations. Good communication skills are vital to ensure both you and the patient get the best from the discussion. This workshop will support you in developing the key consultation skills needed to ensure you are confident in delivering high-quality person-centred consultations.

This **full-day workshop** has been developed to support pharmacy professionals working in all sectors.

Dates available (all day workshop 10am to 4.30pm)

Monday 25<sup>th</sup> September, Manchester

**Book here** 

## Optimising inhaler technique: improving outcomes.

### An evening face to face workshop

The aim of this programme is to enable pharmacy professionals to provide advice to people using inhaled medicines, to optimise their inhaler use and improve outcomes. The workshop will consider the different types of inhaler devices available, how the delivered dose is made in each type, the breathing technique required for each type and the potential implications of sub-optimal technique.
